

Compatibility NoroTecs micronutrient products with plant protections

The evaluation is done by using a concentration corresponding to 100 litre water per hectare

Mixing with several plant protection has been conducted.

We recommend a test before practical use with the actual product, combination and water, as the the water quality effects the result.

Compatibility fungicides

C = Products can be physical mixed at normal dosage rates and with water of good quality.

CE = NoroTec recommends 0,3 liter of Effekt+/ liter boron in all mixtures. Ad boron at last in the sprayer.

X = Product not compatible.
